Accessories Spares Centre (Pty) Ltd

TRADE CATALOGUE

LUBRICANTS & CHEMICALS
CLEANING EQUIPMENT

The complete ASC chemical and car care range — greases, oils and penetrating sprays, anti-freeze and coolants, engine and fuel treatments, degreasers, shampoos, polishes and waxes, tyre, interior and glass care — together with wash mitts, chamois, microfibre cloths, brushes and squeegees, and the grease gun and lubrication equipment range.

How to order: quote the product code shown under each item to your ASC representative or contact our trade counter. The badge under each item is the container or pack size, so the same product in 500ml, 1L and 5L carries three separate codes — check the badge before ordering. Anti-freeze is stocked at several concentrations: ready-to-use, 20% and 94% M.E.G. concentrate, which must be diluted before use — the strength is stated in each description. Always read the manufacturer's label and safety directions before use, and store chemicals away from heat and out of reach of children. Prices are on your current trade price list and are not printed here.
