Clip Removal Tools 1 item 12

How to order: quote the product code shown under each item to your ASC representative or contact our trade counter. The badge under each item is the trade pack size — many clips are stocked both in a pack of 10 for counter sales and in a bulk pack of 50 or 100, so check the badge before ordering. Clip sizes quoted are the hole or stem diameter; where a make is named the clip is the pattern used by that manufacturer, but always compare the clip against the original for head diameter, stem length and barb shape before fitting. Prices are on your current trade price list and are not printed here.
