Cadic ignition coils trace back to Kunshan Cadic Auto Electric Parts Co.Ltd., founded in the early 2000s and based in Kunshan, Jiangsu Province, China, manufacturing dry ignition coils and modules with ISO/TS 16949 quality systems. Over time, Cadic expanded from basic aftermarket parts into a global supplier with hundreds of part numbers and significant exports to America, Europe, Latin America and Asia, improving materials, testing and catalog breadth to stay competitive in today's international ignition-parts market.
